

Electricians helmet with a modern design offering complete protection against arc flash

ONYX

Arc flash ABS dual shell safety helmet equipped with a certified integrated visor. GS-ET-29 compliant: Class 1 (Electric arc), 6-point harness and one handed rotor clamping system.

Replaceable visor

Easy replacement of worn-out visors.

Dual position easy lock

Optimum safety: The visor doesn't rise or fall unexpectedly.

Comfortable distance between the visor and the user's face

Good airflow prevents fogging. Allows user to wear glasses underneath.

Headlamp clips

Designed to attach an elastic band headlamp.

Balanced gravity center

For extended uses. Musculoskeletal disorders risks reduction.

ABS Double Shell

Better impact & heat resistance.

Lateral reflectivity

For a better visibility of workers.

Patented One-D Rotor ergonomic adjustment system

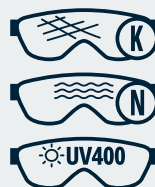

Single handed adjustment with or without gloves.

Easy grip zone

Optimal handling with or without gloves.
